conducted by Sergeant John Phy-Delta; Edith Weisenberger, Chi thian, chief license examiner of the state, closed last night. Although the number of students who participated Approximately 550 votes were cast in the three day tests was not given, in the election, according to Bill Sergeant Phythian indicated that Penick, retiring president of the there was a marked decrease from the record number of 233 contestants who took part last year.

over the house, publicity, dance, ticipation, we were well pleased with sports, music, forum, art, and acti- the interest shown by those who did The committee which tabulated said. The comparatively small re-

The realization that the public becoming safety-minded was again brought to light when the records showed that only one contestant in 20 failed both the written comprehensive tests and the road test this year, whereas approximately one of every eight failed last year. Safety records of Lexington and Fayette county show the same trend. At present there have been 5 deaths and 93 injuries resulting from automobile accidents this year in comparison to 10 fatalities and 166 injuries during the corresponding period of 1941.

The campaign which brought Sergeant Phythian and his assistants, Lieut. Lee Allen Estes and Sergeant must register their intention of E. B. Jones of the State police, to competing by May 15, according to University was conducted Margaret I. Engineers Erect Tower To Cool Drafting Room

No, it isnt a tower that the encharge of arrangements, and the building because they are jealous of the tower of the Biological Sciences building. It is just a much needed ventilation unit that the University has finally found enough mon-

ey to build. It is a type of the "Penthouse System of Exhaust Ventilation." The house that will contain the system is already completed and is four teen feet long, ten feet wide, and seven feet high. The walls of the house are made of "celotex".

According to Professor Perry West, head of the department of mechanical engineering, the total cost of this unit will be \$750. The immediate reason for construction of the unit at this time is due to the expected increased summer enrollment. There will be four fans in the

house, one in each of the walls. In one minute the four fans can remove 60,000 cubic feet of air from all the air in the room can be chan- the Library. ged in one and one-half minutes. This unit will also help to ventilate pressive as he is an alumnus of the the second story of the south wing of the quadrangle.

Speaking Of Elections

Speaking of elections, there have been many own names and then under the names of people who have left school or who are too lazy to come to the polls,

The marks that are made on the hands do resist ordinary soap and water, but a chemical or soap that is used to cut grease serves the purpose well. It is impossible for the election clerks to know whether a student has left school, since their only guide is the student directory. Also they cannot be expected to know every student

What appears to be a good solution to this was suggested by a student the other day in a general

This is to give each student when he enters school a card bearing his photograph, college classification, and signature. He would be required to present this card at the polls and be ready to present it whenever student ticket books are used. Another advantage of the cards, besides on election day and at football games, would be indentification for having checks accepted.

This seems to be the logical way of meeting the problem of extra voting and transferring of tickets at ball games. At the same time it gives the student the consideration the Lexington merchants so willingly show them.

Now that the elections are over, leaving part of the executive body Constitutionalist and the other part Independent, it seems a good time to bury the political hatchet and cooperate in giving full support to the Student Government association. Remember, it is a body of students, elected by students, organized to help govern students, and cannot survive unless it has student support.

When amendments are proposed that require the vote of the students, study the exact meaning of the bill before you sign it. It might be embarrassing if you signed something of which you heartily disapproved. The opposite is also true. It is bad policy to have to say of a defeated bill, "I would have signed that if I had known

Next week is going to be a big week for the complaints about students voting under their campus, with two displays of spring ceremonies. First, the serious one of the inauguration of President Herman L. Donovan, the other the fun frolic of the SuKy-Lances May carnival.

Over 250 dignitaries from colleges all over the nation will be present Wednesday, wearing the robes of the doctorate or the masters. The faculty of the University will be out in full force, and classes will be dismissed for the afternoon to allow all the students to attend the formal installation of the new president of the University.

It might be noted that this is more than a mere convocation that is a signal (so the students think) for a concerted rush to the grill to sip cokes that are getting mighty scarce now. Nor to go to the library to finish that term paper that was due three weeks ago.

The Kernel is taking its part by combining two issues into one large one that will give the official program and a history of the University which is celebrating its diamond jublilee.

Organizations are giving time and efforts to make the ceremonies a success. The Dean of Women has installed an extra secretary to care to lack of watering and rolling. Even to 14 hours a day now, as always befor the work that falls into her realm.

Women and ROTC men are being recruited before the physical education deto take care of messages, give directions, and partment took over, have commentconduct tours of the campus.

A University is judged by its students, rather than by the wonderful impressions made by the leaves the courts open at night as should be accommodated first. Should faculty and administration. In vesterday's mail we received a letter from Wynne McKinney, a recent UKer, but now of the army. We enjoyed hearing from Mac, whose wit has been sharpened even to a greater degree

We pass his letter along to you, knowing that you'll enjoy his witticism and humor.

Dear Roundie,

Received a recent issue of The Kernel yesterday and noted with interest the little squib about my beer drinking proclivities at the old Main Spring. Needless to say, I would surrender my worldly possessions if I could again assemble at the Main Spring with all of the good delegates and drink that unexcelled beer of old Padre Gruner once again.

I imagine that most of the beer drinking delegates are now in the great melting pot,

McKinney Writes From Army

the army, or some other allied branch.

I had a message from our good amigo Carrico where it seems that he is languishing in the sunshine of California along with the flying Irishman, Robert Flannigan Flaherty Meagher. No doubt there is a world of information being promulgated due to the latter's presence. Ammons reports that Brother Pearce is in the Naval Air Corps.

Opinion

I have been at Fort Bliss a month today and so far all has gone well with this writer. As far as army camps go this is a nice place. My official status, according to army terminology is a battery clerk (something ammended to read "jerk") and during combat I am an ammunition agent, this being a coast artillery outfit which in reality is only a form of the

I will receive my corporal's stripe ere long and the little boost in pay will enable me to drink as much beer as I did in the old days.

I imagine that you are still practicing your strong arm tactics on your friends just as you did in the old days on such poor fragile beings as Ron Rico, Pearce, and I. Carrico and I always agreed that you were an Alpha Gamma Rho at heart.

Sincerely,

Here's his address if you'd like to drop him a note: Private Wynne McKinney, Hq Btry, Bn, 602nd Coast Artillery, AATC, Fort Bliss,

Such Is The Life

One thing about being editor of a paper, there is no empty feeling

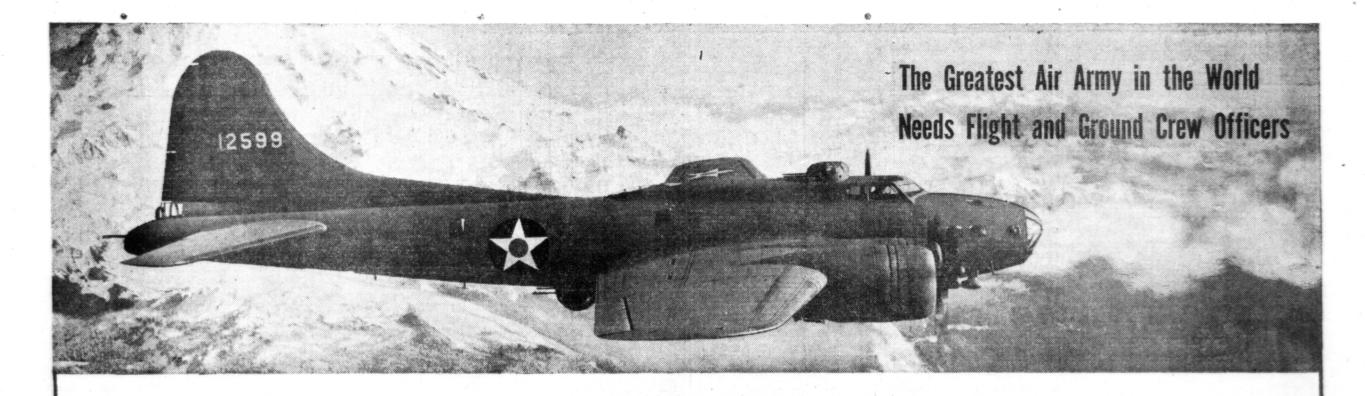

weighty books, you cautiously open the door of the business office and look in the pigeon hole (the largest one of the shelf). There calmly awaiting you is the tallest stack of mail outside the post office.

The biggest letter is for the retiring editor from a friend of his in the army. Most of the rest is one pamphlet after another, telling of the way countries conquered by the Germans are retaliating. There are whole columns filled with the names of Poles, Belgians, or Czechs who have been executed or sent to concentration camps.

Then there are the exchange papers from all over this section of the nation; from Duke and Indiana, Louisiana State and Arkansas, Union and Western. That makes up a sizeable bundle

Clutching them all under one arm, with the books under the other, you start down the hall. First you drop a paper, then picking that up, you drop "Latin America and the United answered roll call with the usual Boots and Saddle club rodeo and States." Navigating the doll stair-"Here, Sir." The regimental officer horseshow. Highlight of the rodeo way down into the sub-basement of Nineteen graduates of Detroit (forgetting the marriage and noting will be an attempt to ride a black McVey hall is a feat. The steps are and papers . . . Well!

Such is the life of an editor

NOW_FOR COLLEGE MEN_A NEW OFFICERS' TRAINING PLAN

* New Deferred Service Plan Allows You to Continue Your Education *

FROM coast to coast—in the skies over America—there is a thundering drone of fighting ships. The mightiest air fleet in the history of the world is mobilizing for victory!

So fast is it growing that there is a place here—an urgent need here—for every college man in America who can qualify for Officer's Training.

The U. S. Army Air Forces need Officers... Flying Officers and Ground Crew Officers. And many of them must come from the ranks of today's college students—men who make their plans now for the necessary Aviation Cadet training.

Thanks to a newly created Air Force Reserve plan, men of all classes—within the ages of 18 to 26, inclusive—can enlist for immediate service or continue the scholastic work required for graduation before being called for active duty.

You must meet the requirements for physical fitness, of course. In addition, you take a new simplified test to determine your ability to grasp the training. A college man should pass it easily.

\$75 A MONTH DURING TRAINING

Those accepted who wish immediate duty will go into training as rapidly as facilities permit. As an Aviation Cadet, you are paid \$75 per month, with \$1.00 a day for subsistence, with quarters, medical care, necessary uniforms, clothing, equipment, traveling expenses.

In 8 months you can win an officer's commission on the basis of your training record in competition with other Aviation Cadets. You can become one of the musketeers of the air—a bombardier, navigator, or a pilot—and be well started on your way to serve America and advance yourself in aviation.

MANY BRANCHES OF SERVICE

There are also commissions awarded in ground crew service. College men particularly will be interested in the requirements for Armaments, Communications, Engineering, Meteorology, Photography. If you have extensive engineering experience your chances of getting a commission are excellent.

This past year about 80% of all Aviation Cadets were commissioned as Second Lieutenants—about

THREE ENLISTMENT PLANS FOR COLLEGE MEN

Juniors • Sophomores • Freshmen

May Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen in college, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until they are ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is part of an over-all Army Enlisted Reserve Corps program shortly to be announced. This program will provide opportunities for college men to enlist in other branches of the Army on a deferred basis and to continue their education through graduation if a satisfactory standard of work is maintained. In case of necessity the Secretary of War shall defermine when they be called to active duty.

It is understood that men so enlisted will have the opportunity of competing for vacancies in officer's candidate schools.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not after regulations regarding established R.O.T.C. plans.) 67% as flying officers. Those who do not qualify remain in the Air Forces on an enlisted status and have further opportunities.

As a Second Lieutenant on active duty with the Army Air Forces, your pay ranges from \$183 to \$245 a month.

AVIATION — THE COMING INDUSTRY

The opportunities for aviation in civilian life have barely been touched. You will bring to those opportunities not only the best training in the world—but the executive ability of an Army officer's training and experience, which have always commanded a premium in business life.

ACT AT ONCE

If you want to fight for America, this is where you can strike deadly blows against our enemies.

If you want advancement—years of solid achievement and education that can never be duplicated this is where you belong.

If you want to be up there in the middle of things—when the enemy cries quits—your place is here—in the Army Air Forces.

FLY WITH YOUR FRIENDS

A special squadron for training is now forming at this college. You and your friends can share together the work and fun of training. If you plan to enlist immediately, start getting your necessary papers ready for the Aviation Cadet Examining Board when it meets in your locality. For complete information, see your Faculty Air Force Advisor. You can take your mental and physical examinations the same day you apply. Get further information now.

NOTE: If you wish to enlist, and you are under 21, you will need your parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today—you can then complete your enlistment before any Aviation Cadet Examining Board.

But Their Spirits Linger On

May Queens Have Departed

Lovelies Of Old Reminisce About Glories Of Past

By NORMA WEATHERSPOON Dawns May day on the campus of

the University of Kentucky, a university noted for its beautiful women. Dawns May day, and lo, no May queen.

As the sun greets Stoll field spirits of departed May Queens gather silently. They gather-blondes, brunettes, redheads, beautiful and lovely-to talk of things that won't happen today. "Remember?" one whispers softly.

Remember the times that the Senior trees were planted on May Day?" "Yes," sighs another, "and remember the gingham dances that were held every year?" "And the May poles and the won-

derful parades?" breathes a third. So on they go remembering . . the cotton from the Kappas' snowscene float that was caught up by sudden wind and scattered over the campus where it remained for weeks, looking like some out-ofseason snowstorm . . . the rains that meant disaster to the festivities . . J. A. "Simp" Estis equipped as a one man auto with steering wheel and rear tire . . . special assessments made on sorority and fraternity members to pay for those fanciful floats . . . classes cut on Saturday morning so that everything would

be in order for that afternoon . . blistered feet and the lacerated shoulders that caused so many KD's pain at the gingham dance the time that a score of them served as the legs of an enormous chicken-wire dragon . . . the sunburns received by queens and attendants attired in filmy gowns or scanty costumes

pacing between signs indicating Keeneland and Churchill Downs . . Rebel, Dean Boyd's old dog, ambling across Stoll field during the coronation ceremonies . . . Miss Upham, the girl who was elected attendant and then proved to be non-existent

. a co-ed, clad only in a barrel,

. Lydia E. Pinkham conducting a futuristic membership campaign as her float progressed down Main the floats that broke down and stopped the whole parade . . . men on horses who seemed to live merely to don their shiny boots and whipcord pants and ride in the Universitys May day parade.

So they reminisce until a startlingly masculine voice interrupts. "What about me? Aren't you going

Alpha Gams Give Reunion Day Tea

The annual International Reunion at the Lafayette hotel.

Following registration of guests and a meeting of the realty corporation, luncheon was served in the Gold room of the hotel

Programs representing the front of a popular digest magazine titled 'News and Views of Alpha Gamma Delta" were given to each guest.

The luncheon tables were arranged to form a large Delta with the illuminated sorority shield over the speakers' table. Red and buff roses were arranged in crystal bowls.

The house was decorated with gladoli and other spring flowers. The tea table was arranged with a lace cloth, ivory tapers and a large bowl of red and buff roses, the fraternity Phi Upsilon Omicron flower. Mrs. John Hagan, housemother, poured tea.

Eloise Bennett, social chairman, was in charge of the arrangements for the tea. Members assisting in the plans were Gene Ray Crawford, Marjory Thomas, Mary Lee Burnett, Ann K. Fuss, Emma Belle Porter, Lulagene Johnson, and Lillian Tate.

Ardery Rules Against Meredith In Travel Suits

"wisest European of today" by Dr. J. ruled Wednesday against Attorney Reimbursement of other state General Hubert Meredith who has officials who have paid their way been seeking to recover \$45,792 spent to meetings they contended were over a period of years for out-of- of appeals' final ruling on Ardery's state travel by state officials includ- dismissal, Bennett added. slovakia for four and a half years ing University professors in attendance of professional meetings.

> appeal to the high court in Meredith's suit and the latter said he would try to get a final ruling there by winter.

Meredith's suit was filed in 1940 after State Auditor David A. fest extravagance" in some out-ofstate travel expenditures, although the auditor said many of the trips were on legitimate official business

While that suit was pending, Reeves petitioned the court to order ism' will stand in history as one of State Finance Commissioner J. Dan Talbott to approve expenditure by him as revenue commissioner of approximately \$100 in attending a national tax conference in St. Paul, Minn., last October. Talbott had held up numerous travel requests after Meredith's suit was filed.

> The Court of Appeals ruled in the Reeves case that the law required the revenue department to investigate tax matters and that the General Assembly had specifically authorized payment for trips when approved by the head of the department affected and by the state fi nance commissioner.

The high tribunal's opinion said the "legislature realized that determination of necessary travel expenses had to be left to the discretion of somebody," and had entrusted it to the heads of the departments affected with a proviso his office he was laboring when that the finance commissioner also must give approval

Arch Bennett, director of accounts and control in the finance department, said that since last ruling approval had been given for reimbursing officials and employes to a possible 300 by the first of where their trips "were definitely trips, he added, were made by officials of state agencies who use federal money and where federal officials had called them for confer-

Sigma Nu, Phi Sig Set Pace In Fraternity Softball Play

City Boys, Alpha Chi' Deadlocked In Independent Loop

By JOE HODGES

Sigma Nu and Phi Sig are setting fast pace in the fraternity softball league, and loom as strong contenders to cap the coming tournament. Sigma Nu in division two boasts five wins against no losses, while Phi Sig shows a record of three wins and no losses.

The City Boys and Alpha Chi Sigma are way out in front in the independent league, each team having four wins and one loss. Regular league play for the independents has now ended, and the two leaders, along with the Band, and New Englanders are eagerly awaiting the

ATO got off to a slow start the first part of the season, but is finishing strong, and should give the leaders plenty of trouble when the tourney begins. Their last two games against Phi Delt and Kappa Sig were taken in stride with plenty to spare. Last year's champions, Sigma Nu,

appear to be headed to another championship by the way they are knocking over opponents. To date, they have defeated everything in division two by a comfortable margin, and in all probability will be seeded in the elimination tourney which is scheduled to get underway next week. Phi Sig is the surprise team of the

year, especially after dropping previously undefeated SAE 11-4. Fair hitting and pitching, and good

WILDCATS SEEK THIRD VICTORY WITH EASTERN

Billy Black Nine Scores 9-5 Win In Practice Tilt

The Kentucky Wildcats will be seeking their third victory of the season this afternoon at Richmond when they clash with the Eastern State Teachers College Maroons.

Jim Mathewson will probably get the starting call on the mound for Coach Billy Black's aggregation. However, if Frankie Bauer, who was injured in a practice game Wednesday, is not able to play today. Ma thewson may have to fill it at second base. If such is the case, Black will find it necesary to pick one of the four remaining hurlers as his

BAUER KAYOED

Bauer was kayoed in the first round of a seven-inning practice tilt with the Lexington Thoroughbred Champions Wednesday, when he attempted to nab the sliding Marion Smith at second base. Smith, a Henry Clay high school athlete, hit a sharp line drive to left field and ran full force into Bauer as he slid safely to second. Frankie suffered a bruised neck and a deep cut on the head. He was given treatment by Dr. R. S. Allen, manaation and the sixth member of his ger of the Thoroughbreds, and was replaced by Mathewson.

Dick Ramsey and John Ballard Tech his freshman year, he turned hit Marvin Akers, who worked the back to Frogland and is following first two innings for the Cats, for successive singles to drive Smith home with the first run of the game, for nine hits and nine runs to win

BLACK BENCHES SELF

Coach Black used a make-shift ineup and substituted often with nexperienced players. The Cat mentor benched himself and moved Randy Hammer from left to center field to give rookies Gus Green and Ed Pasco a fling at the left field

Foster Spence pitched the third, fourth, and fifth innings for the Wildcats, giving up three hits and four runs, three of which were unearned. Bob Herbert finished on the mound and hurled hitless ball over the two inning stretch. He notched three strike outs and hit one bat-

SOCK HOMERS

The Kentucky attack was paced by uccessive home runs by Bruce Boehler and Milt Ticco in the fourth Boehler's blow sailed over the left field fence, while Ticco's carried over the centerfielder's head.

KERNEL SPORTS

The Sporting Way

While most eyes are turned toward the track at Churchill Downs this week, the eyes of many students will be upon the Stoll field track, where Coach Joe Rupert's trackmen meet T. P. I. this afternoon . . . In answer to many requests, I have attempted to compile accurate track and field records of University of Kentucky athletes

As accurately as could be determined from records in the athletic office and from track meet summaries in old editions of the Kernel, these are the all-time records set by Kentucky trackmen on Stoll field.

100-yard dash-Time of 9.8 seconds set by A. L. Grabfelter in 1919. Noah Mullin, senior from Versailles, ran the distance in Joe Rupert is expecting his charges 9.6 seconds but the record was not official because of a high wind. 220-yard dash-Time of :21.4 seconds held by Grabfelter and ing match of the season to Van-

W. Clark, 1919 and 1920 respectively. 440-yard dash— Time of :51.1 seconds set by V. Miller in 1924.

Bernard Johnson set an all-time unofficial record of :50.9 seconds

880-yard dash-Time of 1:59.6 set by D. Thornton in 1920. Dave Rogan is believed to have bettered this mark

Mile run-Time of 4:36.6 set by Ray Hall in 1934.

Two-mile run-Time of 9:58.5 also set by Hall in 1934 120-yard high hurdles-Time of :15.6 seconds set by W. Clark

n 1920. Red Parrish and Willis are believed to have bettered this mark but no record of their times could be found.

Mile relay-Time of 3:31.6 set by team of Snyder, Boyd, Wilhelm, and Thornton in 1919.

Pole vault-Height of 11 feet 9 inches set by J. Brady in 1924. creased the supply of excuses for Coach Rupert stated that he believed a new record of 13 feet was failing students that are required set last year but no record was found.

High jump-Height of 6 feet, 1/2 inches (approx.) set by S. sciences college. Roberts in 1931.

Broad jump-Distance of 21 feet 31/2 inches set by E. Snyder n 1922. John Sims (Shipwreck) Kelly bettered the mark in 1930 grades, but that actually little or no but the summary on the meet was not found. Bernard Johnson jumped 21 feet, 1/9 inch last year.

Shot put-Distance of 44 feet, 3.1 inches set by R. Mains in 1930. Discus-Distance of 128 feet set by J. Tuttle in 1931. He also holds an unofficial mark of 132 feet in the same year.

Javelin-Distance of 192 feet set by Elmore (Red) Sympson in

Ever since Harold Winn wrote a column on the Derby, members of the Kernel staff have been decorating the news room bulletin board with beautiful, flowing poetry about him and that nag Apache that he picked to win the 68th running of the big race . . . Even I contributed to the poetic gems, thinking I would put an end to the hot air from Windy . . . But this didn't stop the loyal supporter of Apache . . . So now, in one last effort, on Derby Eve, I shall attempt to convince the pride of Crittenden county that he has been misled—that he is way off the course—on But he may be a Corrigan the wrong track entirely

CINDER CATS AWAIT T. P. I. THINLIES TODAY BY BOB ADAIR

Kentucky Coach Expects Trackmen To Register Win

The University thinlies will meet the tracksters from Tennessee Polytechnic Institute in a dual track meet at 3:30 this afternoon on Stoll Field. The meet originally scheduled for a Saturday, was changed to keep it from interfering with Derby plans of players and spectators.

The Wildcats dropped their first two meets this season and Coach to break into the win circle against derbilt on the home track and then dropped a decision to the Vols of Tennessee in Knoxville.

Bill Dunlap, outstanding perform er in the mile and two mile runs, s expected to come through with a victory in these events, as is Hoyer in the 100 yd. dash. Dunlap is undefeated in the mile and two mile runs while Hoyer ran second to Bushmiaer of Vanderbilt.

Sports Whirl

By HAROLD WINN

Alsab, the peoples choice to win the Derby, was beaten in the Derby Trial Tuesday and all the experts have been calling it a "good third." Tch, tch, and we thought all the time that they meant to win the race.

Requested, Ben Whitaker's Wood Memorial winner and winter book favorite to get the "Run for Roses" arrived in Louisville Tuesday in car all by himself and that's right Clash With Vols where his backers want him to b Derby Day-all by himself.

We noticed in a Louisville paper that some uninformed soul suggested that you didn't have to be a millionaire to go to the derby, but take it from us, it'd be damned convenient.

A couple of years ago, a friend of ours sent in twenty bucks to one of the hotels to reserve a room for one night explaining he knew prices would be a little higher during the 161/2 to 11/2 last week for their third Derby, but the hotel management sent his money back and said, "Buddy, you don't want a room, you want a pup tent.

Unbeaten Golfers

Coach S. A. (Daddy) Boles' golf team now in their third season without a defeat, will meet the Uni versity of Tennessee linksmen at the Richmond road this afternoon

the Ashland Golf Club course on Captain Lloyd Ramsey, Ermal Allen, Carlisle Myers, and Meade Ferris make up the Big Four of the Kentucky squad. This team defeated the University of Cincinnati clubbers victory in as many starts this sea

Monday the golfers will again meet the Bearcats, at Cincinnati, nd will meet Miami University at Miami, Ohio, the following day

Dean Says Wartime Grades 220-yard low hurdles-Time of :24.4 seconds set by W. Clark Higher Than In Peace Time

One of the most noticeable effects® of the war on scholastic conditions | Grades did take a definite drop of the University is that it has into visit the office of Dr. M. M. White, assistant dean of the arts and

Dean White explains that the failng student of this semester readily links up war pressure with his low direct relationship can be pinned down between low grades and war In fact, White's office reports

scholastic standing at the present is higher than that of pre-war days. Tomorrow is that great big day

The Derby will be run, Of one nag I have this to say The Diver is the one

Many thoroughbreds will

parade to the post And many will run in vain, Because Devil Diver is the toast If the weather isn't RAIN.

This includes Apache, Winn Your horse is no Whirlaway, And run the other way

at the time of the attack on Pearl Harbor, but after radio reports of the news cooled off, students left their sets and went back to their books and University scholarship went on an upgrade

Contrary to the general belief, in the spring, a student's scholastic standing improves. Offering an explaination for the scholastic climb this sprng, Dean Whte pointed out that (1) More help sections are being conducted now than ever before. (2) A great number of failing students dropped out of school at the close of the winter semester. (3) War minded students are working harder, better preparing themselves for defense positions
